

uniQure Announces Closing of Upsized Public Offering and Full Exercise by Underwriters of Option to Purchase Additional Shares

June 25, 2026

LEXINGTON, Mass. and AMSTERDAM, June 25, 2026 (GLOBE NEWSWIRE) -- uniQure N.V. (Nasdaq: QURE), a leading gene therapy company advancing transformative therapies for patients with severe medical needs, today announced the closing of its previously announced underwritten public offering of 5,686,813 ordinary shares at a public offering price of \$45.50 per share, which includes 741,758 ordinary shares issued pursuant to the exercise in full by the underwriters of their option to purchase additional ordinary shares in the offering. The aggregate gross proceeds to uniQure from the offering, before deducting the underwriting discounts and commissions and offering expenses payable by uniQure, were approximately \$259 million. All securities in the offering were sold by uniQure.

uniQure intends to use the net proceeds from this offering to fund its commercialization readiness activities, the potential commercial launches of AMT-130 and related commercialization activities, a confirmatory study for AMT-130, the development of its other clinical product candidates, business development initiatives and research projects, and for general corporate purposes.

Leerink Partners, Stifel, Guggenheim Securities and RBC Capital Markets acted as joint bookrunning managers for the offering. H.C. Wainwright & Co. acted as lead manager for the offering.

The offering was made pursuant to uniQure's automatically effective shelf registration statement on Form S-3 (File No. 333-284168) filed with the U.S. Securities Exchange Commission (the "SEC") on January 7, 2025.
